}

```

5. Service Worker Locale – [sw.js](#)

(Impaginazione migliorata, codice invariato)

```

const CACHE_VERSION = 'v-local-1.0';
const CACHE_NAME = `gemma-local-${CACHE_VERSION}`;
const OFFLINE_CACHE = `gemma-off-local-${CACHE_VERSION}`;

const PRECACHE_URLS = [
  '/',
  '/offline.html'
];

self.addEventListener('install', (event) => {
  self.skipWaiting();
  event.waitUntil(
    caches.open(OFFLINE_CACHE).then((cache) =>
      cache.addAll(PRECACHE_URLS)
    );
});

self.addEventListener('activate', (event) => {
  event.waitUntil(
    caches.keys().then((keys) => Promise.all(
      keys.map((key) => {
        if (!key.includes(CACHE_VERSION)) return
caches.delete(key);
      })
    )).then(() => self.clients.claim())
  );
});

self.addEventListener('fetch', (event) => {
  if (event.request.method !== 'GET') return;

```

```

    event.respondWith(
      fetch(event.request)
        .then((networkResponse) => {
          return caches.open(CACHE_NAME).then((cache) => {
            cache.put(event.request, networkResponse.clone());
            return networkResponse;
          });
        })
        .catch(() => {
          return caches.match(event.request)
            .then((cachedResp) => {
              if (cachedResp) return cachedResp;
              if (event.request.mode === 'navigate') {
                return caches.match('/offline.html');
              }
            })
        });
    });
  });
});

```

6. Service Worker Online – [sw.js](#)

```

const CACHE_VERSION = 'v-online-fixed-1.0';
const CACHE_NAME = `gemma-prod-${CACHE_VERSION}`;
const OFFLINE_CACHE = `gemma-off-prod-${CACHE_VERSION}`;

const PRECACHE_URLS = [
  '/gest/',
  '/gest/offline.html'
];

self.addEventListener('install', (event) => {
  self.skipWaiting();
  event.waitUntil(
    caches.open(OFFLINE_CACHE).then((cache) => {
      return cache.addAll(PRECACHE_URLS).catch(err => {
        console.error('Errore precaching:', err);
      });
    })
  );
});

self.addEventListener('activate', (event) => {
  event.waitUntil(
    caches.keys().then((keys) => Promise.all(
      keys.map((key) => {
        if (!key.includes(CACHE_VERSION)) return
caches.delete(key);
      })
    )
  ).then(() => self.clients.claim())
  );
});

self.addEventListener('fetch', (event) => {
  if (event.request.method !== 'GET') return;

  event.respondWith(
    fetch(event.request)

```

```

        .then((networkResponse) => {
            return caches.open(CACHE_NAME).then((cache) => {
                cache.put(event.request, networkResponse.clone());
                return networkResponse;
            });
        })
        .catch(() => {
            return caches.match(event.request)
                .then((cachedResp) => {
                    if (cachedResp) return cachedResp;
                    if (event.request.mode === 'navigate') {
                        return caches.match('/gest/offline.html');
                    }
                })
        });
    });
});

```

7. Layout Blade – Inclusione Manifest + Icone

```

@if(request()->is('*mobile/extras*'))
<link rel="manifest" href="{{ asset('manifest-extras.json') }}">
@else
<link rel="manifest" href="{{ asset('manifest.json') }}">
@endif

<meta name="theme-color" content="#336633">
<link rel="apple-touch-icon" href="{{ asset('logo.png') }}">
<link rel="icon" type="image/png" href="{{ asset('logo.png') }}">

```

8. Registrazione Service Worker – Prima di </body>

```

<script>
if ('serviceWorker' in navigator) {
    window.addEventListener('load', () => {
        const isOnlineProd = window.location.pathname.includes('/gest');
        const swPath = isOnlineProd ? '/gest/sw.js' : '/sw.js';
        const swScope = isOnlineProd ? '/gest/' : '/';

        navigator.serviceWorker.register(swPath, { scope: swScope })
            .then((reg) => console.log('SW registrato su:', reg.scope))
            .catch((err) => console.log('SW errore:', err));
    });
}
</script>

```
